

## Activity 28

### Aim:

### CD Case Value Cards To explore a chose value

You will need – Empty CD cases, a selection of art and craft materials, pens and pencils, selection of papers

Activity – To make CD case values cards

First collect empty CD cases, these will allow your values cards to stand up on display. Next you must decide on the value you would like to represent. Cut the paper of your choice to fit inside the CD case and decorate with art and craft materials. Make little pockets or flaps with questions for reflection about your chosen value. Other ideas to include in your values cards could be a short quiz, short questionnaire or poem.

Once you have made your values CD card you can give it to a friend as a gift, put it in your class reflection space for others to use in their reflections or give it to visitors to your school. Your values CD card will enable others to reflect and think deeply about the value you have chosen and how they can use it in their life.
