

Activity 29

Friendship Rocks

Spiritual Development: To explore friendship and how our friends are an important gift in our lives.

You will need – large river rocks (you can buy them from a garden centre as well as collect them yourself), nail varnish or acrylic paint, small paintbrushes, varnish or decoupage glue.

Activity – First of all decide on one of your friends who will receive the friendship rock you are about to make. Think of all the things that make them an important person in your life as you decorate your rock. Paint your rock and allow it to dry then either write 'Friends' or 'Friendship' on your rock and design a pattern around the words. Once dry, paint your rock with varnish or decoupage glue and allow to dry. Give the friendship rock you have made to your friend and tell them all the reasons you thought of that make them an important person in your life.
