

Activity 66

Spiritual Development: To consider how important it is to give help and support to others.

You will need – To decide who you are going to help and support. We decided to support our church by offering our time to help with cleaning.

Activity – We decided to help with cleaning our church because many members of the congregation support and help us in school every week. By helping them we felt we were giving something back. We spent an afternoon washing, dusting and polishing to make church clean, tidy and ready for Sunday. We feel that is very important to help and support people and organizations in our local community. By supporting each other we grow, develop respect and acceptance and further our love for one and other.
