

### Activity 57

Aim: To explore our Christian value of hope.

You will need - Paper, string, coloured pens and pencils.

Activity - To make hanging birds with hopes on. (This activity can be carried out using any value of your choice)

First you need to make your bird from white paper. Once you have made your bird write down all your hopes for the future and the hope you put into Gods hands. Hang the hope birds in a class reflection space or as part of a display central in your school. You could prepare some blank birds and ask visitors, other children and adults to write down their hope and then add their bird to the display.
