Prayer Baubles

Spiritual Development: Prayer Exploration

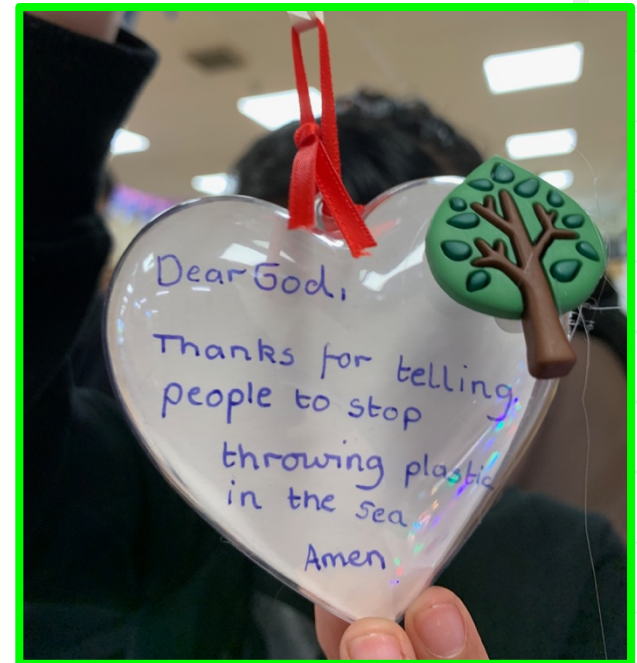

To make and use a prayer bauble to think about special people, pets and places in our lives.

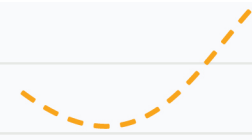

You will need – Baubles with card inserts, felt tip pens, pens, glue gun and selection of craft embellishments.

Activity – Take your plastic bauble and take out the centre card. You can buy baubles that are different shapes, we chose heart-shaped ones.

On one side of your card insert, write a prayer that comes in to your mind. On the other side of the card insert, decorate it in any way you like. Choose things and colours that you can focus on while you pray. Put the decorated card insert in the bauble and close it.

If you wish, you could stick a few embellishments on the outside of your bauble. You must ALWAYS

have an adult to support when using a glue gun. Hang your bauble where you can sit and reflect on the different things you have added, the colours and the prayer that you have written.
