

Activity 45

Prayer Beads

Spiritual Development: To use beads to consider prayers of wonder and thanks for all the seeds of faith God plants.

Prayer Exploration

You will need – A small jar filled with seed beads and a prayer prompt.

Activity – Seed beads are really small beads, the size of tiny seeds. Look closely at the jar of beads. How many seed beads do you think there are in the jar? Can you guess? These seed beads are so tiny and, if you look closely, no two are exactly alike. But when a creator takes them they can be woven or threaded into beautiful, intricate patterns. Take some time to think about how many seeds of faith have been planted in the lives of those you go to school with, those you worship with, and the people in your family. Think about each individual seed, just waiting to find its place in the beautiful and intricate world, together with God. Spend some time thanking God for the people and place he has called you to serve.
