

Activity 20

Spiritual Development: To explore the beauty of individual parts working together as a whole.

You will need – Paper, paint, craft materials, felt tip pens, crayons and scissors.

Activity – To create the maximum effect you need to create as many hands as possible. We asked the whole school to decorate a hand so we had 467 hands altogether! You can use the hand template on the resource CD or draw around your hand and cut it out. Use your imagination to create patterns etc., on your hand. Make your hand individual to represent you. Collect as many hand patterns as you can from ethos, school or church members and put them together to form a wonderful masterpiece! This will demonstrate that we are all individuals with different skills, qualities and attributes but put together we are so much more.
