

Activity 22:

Aim:

Values Bugs To deepen understanding of values

You will need – Wool, 2 cardboard circles in the shape of a doughnut, scissors, card, wiggly eyes, paper and pens.

Activity - Values bugs

1. Open the two U-shaped arches and wrap the wool around them both.
2. Close the arches.
3. With a sharp pair of scissors, cut the wool between the U-shaped arch (all around it).
4. Take a piece of wool, slide it through the opening created when you cut the yarn and tie a knot, pulling as tight as you can.
5. Open up the U-shaped arch to reveal your pom-pom.

First you will need to make the wool pom pom. You make them by wrapping wool around a doughnut shape. When you can't fit any more wool through the hole cut the wool by cutting in between the 2 doughnut circles. Tie the wool tightly at the centre, remove the cardboard and fluff up you pom pom. Using card add feet and any other decoration you would like. You must now decide on a question or quote about the value you have chosen. Give your values bug to a friend, visitor or teacher so they can reflect on the value every time they look at the values bug.

Values Bug

Wrap wool around and through the hole.
