

## Activity 12:

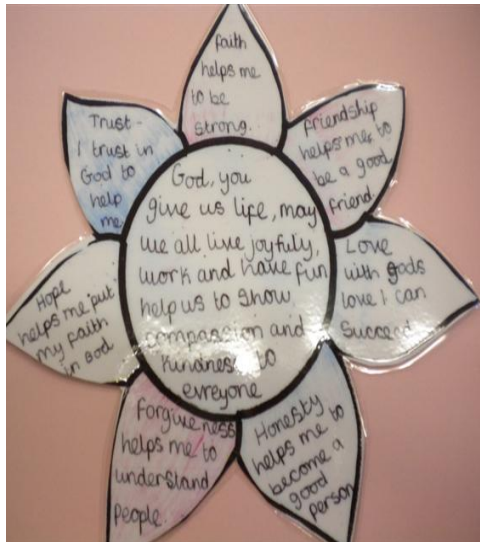

### Aim:

## Values Flowers To explore our Core Values

You will need – Card, coloured pens, and a selection of art materials.

### Activity – Values Flowers

You will need to make a flower with enough petals for each value. In each petal write a quote about a value or a question about a value. Next decorate your flower.

Once your values flower is complete take it around school or out at playtime and ask other children and adults to choose a petal and read the quote or the question and then discuss it with them. This activity will help people to talk about your core values.
