

Activity 7:

Value Train

Aim:

To understand how values help us in life and keep us on track.

You will need – Card, rulers and art and craft materials.

Activity – To make a values train

This activity is designed to show that values help you stay on track through life. First you will need to draw a train engine with carriages attached; you can put as many carriages on as you want.

The train is the values train and each carriage represents a value. Each carriage holds questions for reflection about each value. Children can add their response by sticking post it notes on the display.
