

Activity 26

Aim:

Values treasure Chest

To deepen our understanding of a chosen value.

You will need – Blank treasure chests or you could use an empty tissue box, art and craft materials, pens and pencils, paper and card.

Activity – To make a values treasure chest

First you need to find an empty tissue box or you can ask your teacher to order blank treasure boxes. Decide on the value you would like to represent in the treasure box. In your treasure box you can put quotes, questions, poems and artefacts that relate to the value you have chosen. Once you have made your values treasure chest you can discuss it with groups of children. The treasure box could be left in a class reflection space with post it notes for children to respond and reflect. You could leave your box for the beginning of a governors meeting or parents meeting for responses from adults.
