

Activity 12

Spiritual Development:

We are all different but all fit together!

To celebrate individuality and find our place in a group.

You will need – Jigsaw piece template on card, felt tip pens, glitter, beads, buttons, paint and any craft materials you wish to decorate your jigsaw piece.

Activity – Take your jigsaw piece and think about how you would like to decorate it. Decorate it with you in mind, your favourite colours and patterns. Add glitter, beads and buttons or other craft materials that you think reflect you and your personality. Once everyone has completed their jigsaw piece, find a large space on a wall or even the floor and fit all the pieces together. Once all the pieces are joined together stand back and look at the amazing sight you have created. Discuss with a friend or in small groups how different and unique each piece is as an individual piece but how each piece fits perfectly as a whole. Compare this to human beings and how different they are but yet how amazing things are when we all work and fit together. The glue that holds us all together is invisible yet so strong – faith. Faith is the glue that holds us together
